## Key Service Lines

### Emergency & Trauma Care

St. James Healthcare's Level I Emergency & Trauma Center brings patients and their loved ones the skilled services and highest technology available in the area. We provide a full range of specialized care, including lab and pharmacy in the ER, dedicated radiology services, and telehealth services.

### Heart & Vascular

St. James is home to a comprehensive cardiac and vascular program. From diagnosis to rehabilitation, St. James offers a variety of heart and vascular procedures including minimally invasive and surgical interventions.

### Cancer Care

The oncology specialists at St. James are skilled in treating all forms of cancer by creating personalized care plans. St. James comprehensive oncology services begin with prevention and screening, and include chemotherapy and infusion, radiation, and surgical interventions.

### Women's Health

St. James Healthcare offers an array of women's services to meet the needs of the whole person. Comprehensive care includes a newly renovated Family Birth Center, world-class obstetrical care, a high-risk pregnancy program, and state of the art digital mammography services. In addition, specially-trained surgeons offer minimally invasive robotic surgery for gynecological procedures.

### Orthopedics

St. James offers a full-range of orthopedic services including sports medicine, total joint replacement, podiatry, spine program and more. The program focuses on nonsurgical and minimally invasive intervention but is also recognized for hip and knee replacement surgery.
